EVERY JOURNEY MONITORED

Do you know where your vehicles are going?
Where they went previously?
How the vehicle was being driven?

You can with RentalMatics' **Geo-Fence technology.**

Every aspect of a vehicle's journey is measured - nothing is missed.

EVERY JOURNEY MONITORED

GEO FENCE

Create an unlimited number of geo-fences with automated alerts when a perimeter is breached.

- ⊙ **Enhanced fleet security**
- ⊙ **Revenue growth (e.g. border crossing charges)**

TRACKING

Track direction, location, speed and mileage – for all live and historical journeys

- ⊙ **Unparalleled reporting on driver behaviour and vehicle movements**

ALERTS

Precision mileage monitoring with service alerts to prevent vehicle downtime

- ⊙ **Save costs through breakdown prevention**
- ⊙ **Create optimised servicing plans for a healthier fleet**

REPORTS

Driver behaviour reports and safety scoring.

- ⊙ **Identify high risk drivers and reduce risk**

TIME / FUEL

See estimated time of arrival and fuel levels of returning vehicles.

- ⊙ **Quicker vehicle turnarounds, reduced counter time and improved customer satisfaction**

EVERY VEHICLE TRACKED

Do you know where every vehicle in your fleet is?

With RentalMatics' **Track & Trace** feature, you're fully in control, being able to find every vehicle in seconds.

”

“We can find any car in 10 seconds.”

EVERY VEHICLE TRACKED

GPS TRACKING

Locate every vehicle, 24/7 with secure GPS tracking
 ⦿ **Peace of mind and enhanced security**

FULL FLEET INVENTORY

Check full fleet inventory with live positioning maps
 ⦿ **Optimised fleet utilisation and lot management – never count vehicles in a lot again!**

FIND VEHICLE

Recover lost, stolen, overdue vehicles.
 ⦿ **Reduced fleet costs and fraud**

REVIEW SPEEDS

Review speed and mileage per vehicle
 ⦿ **Accurate customer billing and reduced human error for fuel and toll charges**

SAVE TIME

Boost data-enabled decision making
 ⦿ **Staff empowerment and improved productivity**

EVERY IMPACT RECORDED

With RentalMatics **impact reports** you get the whole truth — when and where the damage or impact happened, the speed, force and direction of the collision.

Most importantly, it will tell you who was at fault.

EVERY IMPACT **RECORDED**

FAST REPORTS

Get comprehensive accident insights and impact reports via SMS or email

- ⦿ **Reduce insurance costs and legal fees**

ACCURATE RECORDS

Record damage and crash detection data

- ⦿ **Minimise customer disputes**
- ⦿ **Enable shorter claims processes**

DATA CONTROL

Track speed, driver behaviour, harsh braking, sharp turns

- ⦿ **Reduce fraudulent claims**
- ⦿ **Identify high risk drivers**

”

“Without RentalMatics we couldn't prove who was at fault in an accident.”

”

“Our customers feel reassured that we're watching out for them.”

REPORT BUILDING SORTED

RentalMatics is like a fitness tracker for your fleet, capturing countless pieces of data. But data is only useful when it is turned into actionable insight.

Our **easy-to-use dashboards** make reporting a breeze.

REPORT BUILDING SORTED

QUICK INTEGRATION

Go live in weeks, not months

Quick Integration

No operational disruption. Have a 100% connected fleet in weeks.

Plug-and-Play

Install today, get insights today.

Fully Integrated and Customisable

A one-stop-shop telematics solution. Need something specific? We'll build it.

Tried, Tested, Trusted

Successful integrations with all of the world's leading vehicle rental platforms.

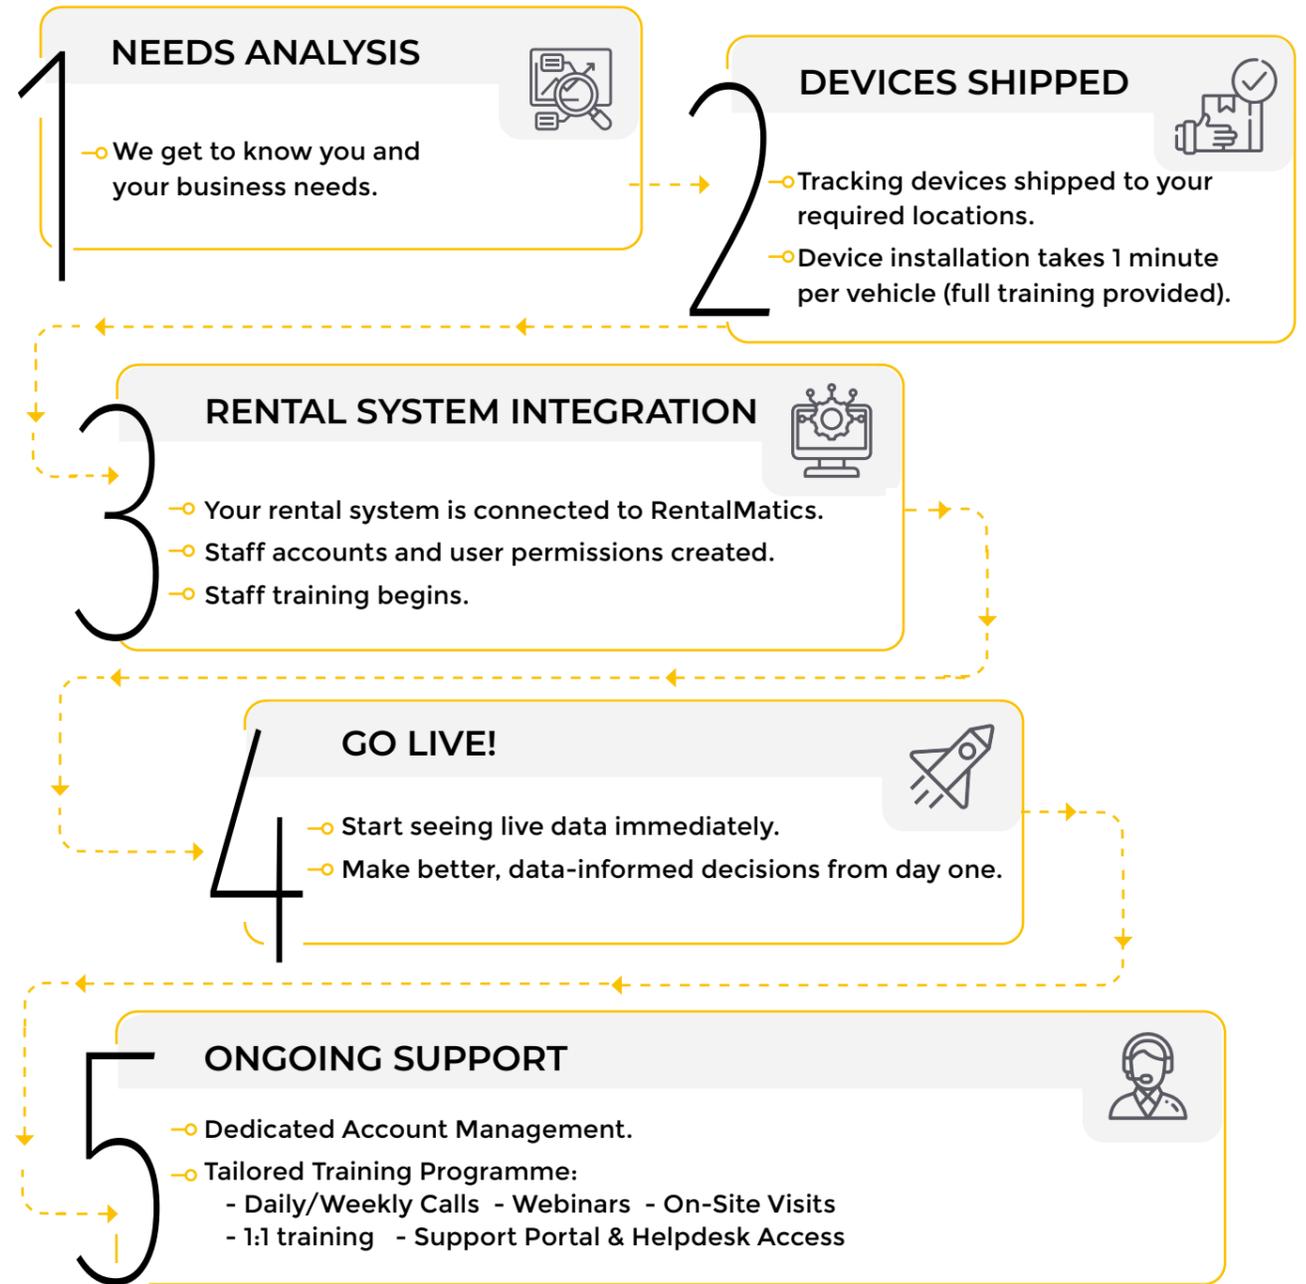

"It's a game changer. The more you use it, the more you know."

"I use it on a daily basis and absolutely love it."

INTEGRATION PROCESS

We Are Your 'Solutions' Partner.
Your Success is Our Success.

OUR DEVICES

Our hardware works with any system. We will recommend the optimum device for your business and seamlessly integrate with your existing set-up, cutting out any operational disruption.

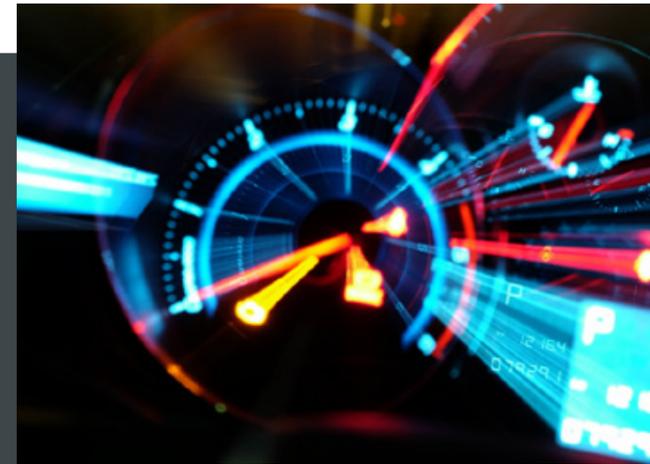

- Discreet devices
- Quick & easy to install
- Difficult to locate
- Tamper alerts for unauthorised removal

WE OFFER 3 INSTALLATION TYPES

On Battery	On-Board Diagnostics (OBD)	Original Equipment Manufacturing (OEM)
<p>1-Minute Install</p> <p>Concealed under the bonnet of the vehicle for extra security.</p> <p>Network Agnostic</p> <p>4G performance</p>	<p>1-Minute Install</p> <p>Ideal for vehicle leasing companies.</p> <p>Network Agnostic</p> <p>4G performance</p>	<p>Data comes directly from the vehicle and is displayed in the RentalMatics user interface.</p>
		

WHY NOW?

If not now, when? The vehicle rental industry is changing rapidly, and telematics technology is at the forefront of that transformation.

Success is in the data. It's time to start winning.

Our 'plug and play' software could enable extraordinary growth and accelerate the digital transformation of your business, enabling you to improve profitability and operational efficiency. With RentalMatics you could:

- Maximise revenue & minimise costs
- Geo-locate every vehicle in your fleet 24/7
- Reduce damage disputes & fraud
- Prevent breakdowns & major repairs
- Improve customer service
- Empower workflow & employee efficiency
- Make better decisions with comprehensive data & reports

Let our game-changing telematics technology help to make sense of your data, take control and get the ultimate edge on your competitors.

Don't get left behind. Lead the charge with RentalMatics' tried, tested and trusted solution.

“Now that it's live, we just can't live without it. We use it all the time.”

“It's easy to understand the basics of the system straight away.”

WHY US?

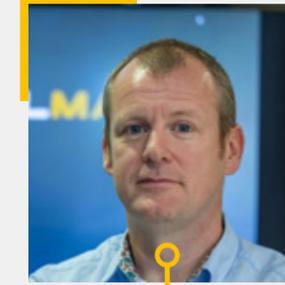

- A diverse, multi-cultural team of vehicle rental experts, **servicing customers across 4 continents.**
- Deep understanding of the industry - **we know the pain points first-hand** and have created our platform to solve them.
- We are obsessed with **problem solving** and **value creation.**
- **Seamless integration** with your car rental system, via a 'Plug & Play' solution that is **fully customisable.**
- **World class customer support** and on-boarding process, with dedicated account management.
- Tried, tested and trusted by the **world's top car rental brands** across Europe, North America, Latin America, the Middle East and Australia.
